

Name: Osigbemhe kelvin

What is consonant cluster.

Answer

A consonant cluster, also known as a consonant blend, is a group of two or more consecutive consonant sounds with no intervening vowel in a word. In other words, it's where consonants appear right next to each other without a vowel sound separating them.

Mention any 5 words with consonant cluster.

Answer

1. Spark: This word has two consonant clusters, "sp" at the beginning and "rk" at the end.
2. Twist: This word has two consonant clusters, "tw" at the beginning and "st" at the end.
3. Queen: This word has two consonant clusters, "qu" at the beginning and "en" at the end.
