WEEK 4 AND 5

TOPIC: HUMAN SHARE IN GOD CREATIVE ACTION

Man was created in the image of God after His likeness. Man is therefore referred to as "the pyramid of God creation" He is the crown of creation. He equally gave man power to be fruitful and multiply

The dignity of man in God's creation rises everyday, the ten commandments attest to this. The special consideration given to man at creation is dignity. When man was created on the sixth day, God felt that man should not be alone and this made God to create a helper for him.

The image of God was shown in terms of human intelligence, creativity, love, and care for others. Man is able to reason and distinguish between good and bad.

As a result of intellectual development, he is able to develop material resources within his reach. Examples are food production, trees used to make firewood to cook his food and other things such as chairs, tables, buildings, books, whiteboard markers etc. Nowadays there have been increases in technological development and now man is making cars, aeroplanes and trains to carry people from one place to another

Sin means deviation from the laws of good and bad. This means sin is deviation from right to wrong; doing the things that go contrary to the laws of nature and laws of God. E.g. stealing, murder, breaking the laws of the land, fighting etc. Sin came into the world as the result of the disobedience of Adam and Eve who disobeyed God by eating the forbidden fruit, since then sin has become a major thing in the world

CONSEQUENCES OF DISOBEDIENCE

The story of Cain and Abel

Adam and Eve bore two children. As they grew up, they chose their vocations. Cain was a tiller of the ground (farmer) while Abel was a keeper of sheep (shepherd)
