

CULTURAL AND CREATIVE ARTS ASSIGNMENT (2)

(1) Give the explanation for rehearsal

ANSWER

Rehearsal is the practice session of performance before viewing it to the audience. Rehearsal simply means a practice done by the actors and actresses in preparation for a performance. During rehearsals, lapses are discovered and corrected for perfections before the actual performance. The rehearsal process is important and focuses on creating, developing and refining a piece of drama before the final performance. One of the major reasons for having rehearsal is to improve the production and make sure, all the bumps and bruises are well smoothed out.

There are maintenance rehearsal and elaborative rehearsal.

Maintenance rehearsal which is also known as rote memorization involves repeating information out loud or in the head while Elaborative rehearsal is more elaborate and involves additional memory aids like mnemonic devices.
